1 Introduction

Module works seamlessly with SEO and Human Friendly URL's generated by **DNNMasters SEO URL & Performance Provider** and its plugins

Introduction

DNNMasters SEO Sitemap is an advanced Sitemap and Search Engines Sitemap module with Side Navigation functionality and a wealth of layout and design options. Search Engines Sitemaps creation is automated with dynamic generation via web service. The module can also create Search Engines Sitemaps from Forum and Blog entries and several popular modules including Catalog. Layouts and designs can be saved in templates to be applied at will. Templates can be edited and created directly from the module. Graphic files can be uploaded and stored in default or custom localization. Easy PA installation, no core changes.

Straightforward and easy to use interface

DNNMasters SEO Sitemap is a powerful package that combines ease of use and the ability to create and use layout & design templates. The module interface is clear, intuitive and easy to use. Dynamic, web service generation of Search Engine Sitemap allows you to set it and forget it. Everything you need is right there at your finger tips.

Versatile yet easy to use

With **DNNMasters SEO Sitemap** you can easily change the design and layout of your Site Map with few mouse clicks. The module can also function as Child Tabs side navigation help.

Creating and managing your website can be fun

Well, give it a try...

Features:

- ✓ Layout options,
- ✓ Tree,
- ✓ Directory,
- ✓ Dropdown,
- ✓ Dropdown directory,
- ✓ Breadcrumbs,
- ✓ Mixed layouts,
- ✓ Customized table cells,
- ✓ Basic tree layout,
- ✓ Simple unordered list,
- ✓ Templates (create/edit templates),
- ✓ Display multiple portals,
- ✓ Display only Child Tabs,
- ✓ Display Child Tabs with current level tabs,
- ✓ Display lines in Tree View,
- ✓ Display icons in Tree View (set/upload icons),
- ✓ Display hidden tabs (with exclude option),
- ✓ Use localization extensions - Core DNN, Apollo, Ealo,
- ✓ Localized pages display - show all / show current language only,
- ✓ Generate Search Engines Sitemap,
- ✓ Include hidden tabs in Search Engines Sitemap (with exclude option),
- ✓ Include DNNMasters Content Builder articles in Search Engines Sitemap,
- ✓ Include DNN Blog entries in Search Engines Sitemap,
- ✓ Include DNN Forums entries in Search Engines Sitemap,
- ✓ Include Active Forums entries in Search Engines Sitemap,

- ✓ Include Ventrian News Articles entries in Search Engines Sitemap,
- ✓ Include Ventrian Property Agent entries in Search Engines Sitemap,
- ✓ Include Ultra Video Gallery entries in Search Engines Sitemap,
- ✓ Property Agent entries in Search Engines Sitemap,
- ✓ Include Catalog Store entries in Search Engines Sitemap,
- ✓ Dynamic Search Engines Sitemap via web service,
- ✓ Optional cached static XML Sitemap file generated on schedule (large sites),
- ✓ Select location for Search Engines XML Sitemap (web root/portal root),
- ✓ Select portal alias to use for Search Engines Sitemap,
- ✓ Set Search Engines Sitemap refresh frequency,
- ✓ Set Search Engines Sitemap priority,
- ✓ Use Search Engines Sitemap priority from core DNN page settings (per page priority)

1.1 Why DNNMasters?

Save time

DNNMasters SEO Site Map / Google Site Map helps you to find and display content of your portals easier and quicker. Searching for Tabs, setting up display options, creating Google

Site Map - all of it becomes a matter of seconds or minutes, not hours or days.

Save money

Content is a key feature of your Portals and cannot be over valued. A professional, well organized and localized DNNMasters SEO Site Map / Google Site Map module can decrease support costs drastically and increase user satisfaction.

Concentrate on the important things

Let your users enjoy your Portals, not your Support. DNNMasters SEO Site Map / Google Site Map intuitive interface is transparent, straightforward and shields you from the tedious task of browsing tabs over and over again. What you need is simply what you get.

All portal sizes and types are supported

Whether you manage a small community portal or a global company's Intranet portal, DNNMasters SEO Site Map / Google Site Map is the right tool for you. It allows you to find the right tab quickly. It can even help you to display Site Map of a multi-portal website. Wealth of advanced options allows it be easily fine tuned to suit your needs.

Supply a perfect membership experience

If you really care about your users experience when browsing your website, DNNMasters SEO Site Map / Google Site Map is for you. What other modules just promise - DNNMasters SEO Site Map / Google Site Map does. It provides you with the right tools to do the job. Forget the fuss, get on with your work...

Managing your portals can be fun !

Well, give it a try...

1.2 How to buy?

Module is available on www.snowcovered.com

directly on our portal www.dnnmasters.com

or as part of a subscription plan on www.dnnmasters.com

1.3 Licensing

General License info

- Module is licensed per DNN portal and the license is attached to domain alias.

For details please see [DNNMasters END USER LICENSE AGREEMENT \(EULA\)](#)

1.3.1 EULA

DNNMasters END USER LICENSE AGREEMENT (EULA)

Please review the following license agreement before installing or using the licensed DNNMasters software product and/or its related materials.

Definitions:

This DNNMasters End-User Software License Agreement ("EULA") is a legal agreement between you (either as an individual user, corporation or single entity) and DNNMasters for a product which includes computer software, and may include associated media, printed materials, and online or electronic documentation ("SOFTWARE PRODUCT" or "SOFTWARE"). By exercising your rights to install the SOFTWARE PRODUCT, you agree to be bound by the terms of this EULA, including the limitations and warranty disclaimers.

If you do NOT agree to the terms of this EULA, please return the SOFTWARE PRODUCT and immediately destroy all copies of the SOFTWARE PRODUCT in your possession.

SOFTWARE PRODUCT LICENSE

The SOFTWARE PRODUCT is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties.

1. GRANT OF LICENSE.

This is a license agreement, and NOT an agreement for sale. DNNMasters retains ownership of the copy of THE SOFTWARE in your possession, and all copies you may be licensed to make.

DNNMasters retains all rights not expressly granted to you in this LICENSE.

DNNMasters hereby grants to you, and you accept, a non-exclusive, non-transferable license to use, copy and modify THE SOFTWARE only as authorized below.

When the source code is provided with the SOFTWARE PRODUCT, DNNMasters grants you the right to modify, alter, improve, or enhance the SOFTWARE PRODUCT without limitation, except as described in this EULA.

Although rights to modification of the SOFTWARE PRODUCT are granted by this EULA, you may not tamper with, alter, or use the SOFTWARE PRODUCT in a way that disables, circumvents, or otherwise defeats its built-in licensing verification and enforcement capabilities. The right to modification of the SOFTWARE PRODUCT also does not include the right to remove or alter any trademark, logo, copyright or other proprietary notice, legend, symbol or label in the SOFTWARE PRODUCT.

Any modifications made to the SOFTWARE PRODUCT will render it non-supportable by DNNMasters. You may, at your discretion, contact DNNMasters about distribution of the altered SOFTWARE PRODUCT, and if agreeable terms can be determined, the software product may be distributed according to the agreement. The altered SOFTWARE PRODUCT will become supported by the party designated in the agreement between DNNMasters and the user. Ownership of the altered SOFTWARE PRODUCT is transferred to the party designated in the agreement between DNNMasters and the user. You may not distribute or redistribute changes made to the SOFTWARE PRODUCT to anyone other than groups designated by the agreement between DNNMasters and the user. Contact DNNMasters using the information included at the end of this document.

Although the source code for the SOFTWARE PRODUCT may be included, you may not share, use, or reuse the knowledge or technologies in other applications without explicit approval from DNNMasters.

You may make copies of the SOFTWARE PRODUCT as is reasonably necessary for its use. Each copy must reproduce all copyright and other proprietary rights notices on or in the SOFTWARE PRODUCT. You may not modify or create derivative copies of the SOFTWARE PRODUCT License. All rights not expressly granted to you are retained by DNNMasters.

Provided that you have accepted the terms contained herein, this EULA grants you the following rights:

A) If you purchased a STANDARD (HOST) LICENSE: You are granted a license to install the SOFTWARE PRODUCT on a single production web server, and use it for a single DotNetNuke installation (instance). You are also permitted to use the same license for one non-production development server and one staging server.

STANDARD (HOST) LICENSE SOURCE CODE: If you purchased a STANDARD (HOST) LICENSE with the Source Code for the SOFTWARE PRODUCT, you are further licensed to view the source code of the SOFTWARE PRODUCT and modify it for use as described above. Under no circumstances may the source code or products developed by using the source code be re-distributed in any form.

B) If you purchased an ENTERPRISE LICENSE: You are granted a license to install the SOFTWARE PRODUCT on unlimited production web servers, and use it for unlimited DotNetNuke installations (instances) within the Enterprise (legal entity).

ENTERPRISE LICENSE SOURCE CODE: If you purchased an ENTERPRISE LICENSE with the Source Code for the SOFTWARE PRODUCT, you are further licensed to view the source code of the SOFTWARE PRODUCT and modify it for use as described above. Under no circumstances may the source code or products developed by using the source code be re-distributed in any form.

C) If you purchased a HOSTING LICENSE: You are granted a license to install the SOFTWARE PRODUCT on a single production (machine or virtual machine) web server, and use it for unlimited DotNetNuke installations (instances) on that server. You are also permitted to use the same license for one non-production development server and one staging server. You are also permitted to allow the usage of THE SOFTWARE PRODUCT by any third party that uses HOSTING SERVICES provided by you.

HOSTING LICENSE SOURCE CODE: If you purchased a STANDARD (HOST) LICENSE with the Source Code for the SOFTWARE PRODUCT, you are further licensed to view the source code of the SOFTWARE PRODUCT and modify it for use as described above. Under no circumstances may the source code or products developed by using the source code be re-distributed in any form.

D) If you purchased a DEVELOPER LICENSE: You are granted a license for a single developer (individual) within your organization to distribute the SOFTWARE PRODUCT royalty-free with an unlimited number of ASP.NET applications to an unlimited number of web servers, provided they are developed solely by that developer. At no time may the SOFTWARE PRODUCT be used by more than one individual at the same time for development purposes -- nor may the SOFTWARE PRODUCT be distributed for use with applications other than those developed by her/him. Any

application with which the SOFTWARE PRODUCT is distributed must add significant functionality to the SOFTWARE PRODUCT and must not contain the same, or substantially the same, functionality as any DNNMasters product.

You are required to ensure that the SOFTWARE PRODUCT is not distributed in any form that allows it to be reused by any application other than that with which you distribute it. For example, if you install an ASP.NET control along with a packaged application on a customer's server, that customer is not permitted to use the control independent of your application.

Developer LICENSE SOURCE CODE: If you purchased a DEVELOPER LICENSE with the Source Code for the SOFTWARE PRODUCT, you are further licensed to view the source code of the SOFTWARE PRODUCT and modify it for your own needs or for redistribution. Under no circumstances may the source code be re-distributed in any non-compiled form, or used as the basis for creating a product that contains the same, or substantially the same, functionality as any DNNMasters product.

For All Licenses:

Regardless of the type of license purchased, if the SOFTWARE PRODUCT includes reusable software such as controls, components, plugins, stylesheets, etc. you may not use any of these independently of the SOFTWARE PRODUCT.

In no case shall you rent, lease, lend, redistribute nor re-license THE SOFTWARE PRODUCT or source code to a 3rd party individual or entity, except as outlined above. In no case shall you grant further redistribution rights for THE SOFTWARE PRODUCT to the end-users of your solution.

2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS.

Termination. Without prejudice to any other rights, DNNMasters may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE PRODUCT and all of its component parts, source code, associated documentation, and related materials.

3. INTELLECTUAL PROPERTY RIGHTS RESERVED BY DNNMasters.

All title and copyrights in and to the SOFTWARE PRODUCT (including but not limited to any images, photographs, animations, video, audio, music, text, and "applets" incorporated into the SOFTWARE PRODUCT), the accompanying printed materials, and any copies of the SOFTWARE PRODUCT are owned by DNNMasters except for certain portions for which DNNMasters has obtained redistribution rights from the title or copyright holder. The SOFTWARE PRODUCT is protected by Polish and U.S. copyright laws and international treaty provisions. Therefore, you must treat the SOFTWARE PRODUCT like any other copyrighted material.

You must not remove or alter any copyright notices on any copies of the SOFTWARE PRODUCT. This SOFTWARE PRODUCT copy is licensed, not sold. You may not use, copy, or distribute the SOFTWARE PRODUCT, except as granted by this EULA, without written authorization from DNNMasters or its designated agents. Furthermore, this EULA does not grant you any rights in connection with any trademarks or service marks of DNNMasters.

DNNMasters reserves all intellectual property rights, including copyrights, and trademark rights.

4. SUPPORT SERVICES

DNNMasters may provide you with support services related to the SOFTWARE PRODUCT. Use of

any such support services is governed by DNNMasters policies and programs described in online documentation and/or other DNNMasters provided materials.

As part of these support services, DNNMasters may make available bug lists, planned feature lists, and other supplemental informational materials. DNNMasters MAKES NO WARRANTY OF ANY KIND FOR THESE MATERIALS AND ASSUMES NO LIABILITY WHATSOEVER FOR DAMAGES RESULTING FROM ANY USE OF THESE MATERIALS. FURTHERMORE, YOU MAY NOT USE ANY MATERIALS PROVIDED IN THIS WAY TO SUPPORT ANY CLAIM MADE AGAINST DNNMasters .

Any supplemental software code or related materials that DNNMasters provides to you as part of the support services, in periodic updates to the SOFTWARE PRODUCT or otherwise, is to be considered part of the SOFTWARE PRODUCT and is subject to the terms and conditions of this EULA.

With respect to any technical information you provide to DNNMasters as part of the support services, DNNMasters may use such information for its business purposes without restriction, including product support and development. DNNMasters will not use such technical information in a form that personally identifies you without first obtaining your permission.

5. LIMITED WARRANTY.

NO WARRANTIES.

DNNMasters expressly disclaims any warranty for the SOFTWARE PRODUCT. The SOFTWARE PRODUCT and any related documentation is provided "as is" without warranty of any kind, either express or implied, including, without limitation, the implied warranties of merchantability, fitness for a particular purpose, or non-infringement. The entire risk arising out of use or performance of the SOFTWARE PRODUCT remains with you.

6. LIMITATION OF LIABILITY.

NO LIABILITY FOR CONSEQUENTIAL DAMAGES.

In no event shall DNNMasters or its distributors be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or any other financial loss) arising out of the use of or inability to use this DNNMasters product (THE SOFTWARE PRODUCT) and related materials, even if DNNMasters has been advised of the possibility of such damages. Because some states do not allow the exclusion or limitation of liability for consequential or incidental damages, the above limitation may not apply to you.

7. HIGH RISK ACTIVITIES.

The SOFTWARE PRODUCT is not fault-tolerant and is not designed, manufactured or intended for use or resale as on-line control equipment in hazardous environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, direct life support machines, or weapons systems, in which the failure of the SOFTWARE PRODUCT, or any software, tool, process, or service that was developed using the SOFTWARE PRODUCT, could lead directly to death, personal injury, or severe physical or environmental damage.

Accordingly, DNNMasters and its suppliers and licensors specifically disclaim any express or implied warranty of fitness for High Risk Activities. You agree that DNNMasters and its suppliers and licensors will not be liable for any claims or damages arising from the use of the SOFTWARE PRODUCT, or any software, tool, process, or service that was developed using the SOFTWARE PRODUCT, in such applications.

8. GENERAL.

If any provision of this EULA is held invalid, the remainder of this EULA shall continue in full force and effect.

A waiver by either party of any term or condition of this EULA or any breach thereof, in any one instance, shall not waive such term or condition or any subsequent breach thereof.

9. MISCELLANEOUS.

DNNMasters do not hereby consent to any of your general terms or conditions. The terms and conditions contained in this License Agreement may not be modified except in a writing duly signed by you and DNNMasters. This License Agreement shall be governed by the laws of the Country of Poland, without regard to conflicts of law provisions, and you hereby consent to the exclusive jurisdiction of the court sitting in the city of Limanowa, Poland.

10. CONTACT INFORMATION.

If you have any questions regarding this End User License Agreement, please email:

support@DNNMasters.com

1.4 Getting Help

Primary Support Channel is Snowcovered Help Desk on www.snowcovered.com

Dedicated support forum is available on www.dnnmasters.com

You can also receive help by emailing support@dnnmasters.com

2 Installing / Uninstalling the Module

File naming convention:

To determine proper install file (PA) for your DotNetNuke version please note the naming convention that we use.

Convention:

DNNMasters.ModuleName_PA_versionnumber_dnnversion.zip

Sample:

DNNMasters.SEO.SiteMap_PA_5.0.25_dnn5.6.zip

2.1 Installing the Module

Installation

As always, make a backup of your database BEFORE installing the module!

To install **DNNMasters SEO Sitemap** please use standard PA (Private Assembly) procedure:

- **backup your database**
- log in as Super User (default "Host")
- go to **Host -> Extensions**
- click on **Install Extensions Wizard**

YOU ARE HERE: [Host](#) > [Extensions](#)

EXTENSIONS

[Manage](#)

Edit

- [Install Extension Wizard](#)
- [Create New Extension](#)
- [Create New Module](#)

Admin

- [Help](#)
- [Online Help](#)
- [Print](#)
- [View Source](#)
- [Settings](#)
- [Delete](#)
- [Refresh](#)

Move

- [To SocialMediaPane](#)
- [To LeftPane](#)
- [To RightPane](#)
- [To BottomPane](#)
- [To Footer_LeftPane](#)
- [To Footer_RightPane](#)
- [To Footer_BottomPane](#)

- Select **Choose File**

6x.dnnmasters.com - main > Extensions

Upload New Extension Package

DotNetNuke can be extended in many ways. This wizard helps you upload and install DotNetNuke extension packages.

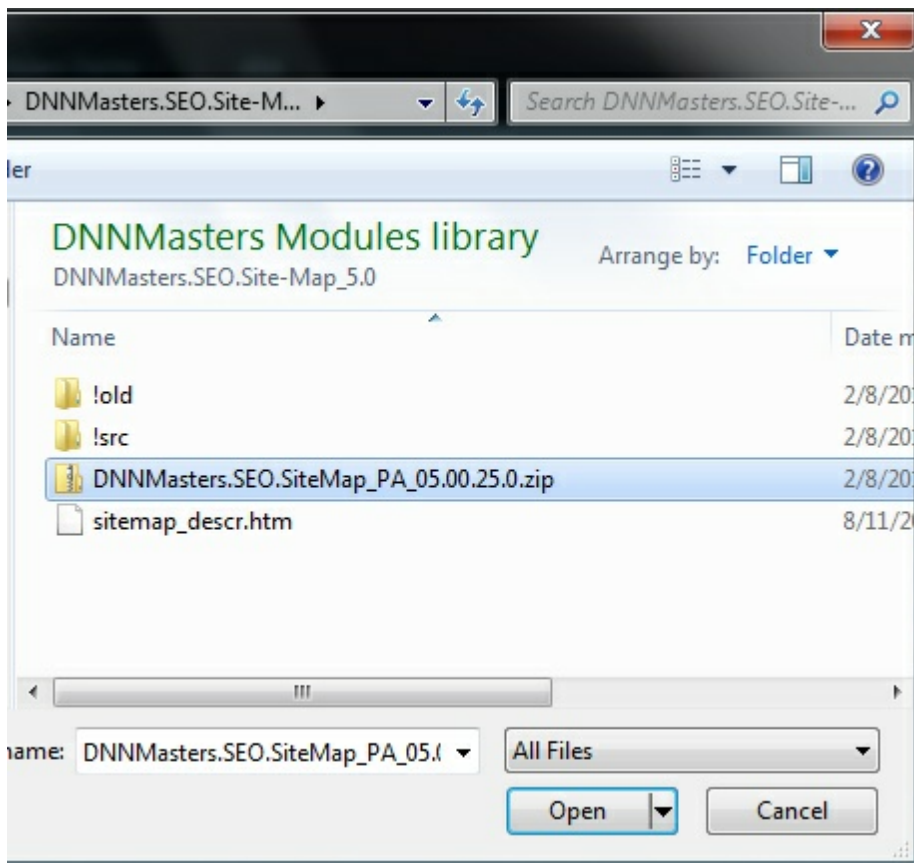

Use the Browse button to browse your local file system to find the extension package you wish to install, then click Next to continue.

Choose File No file chosen

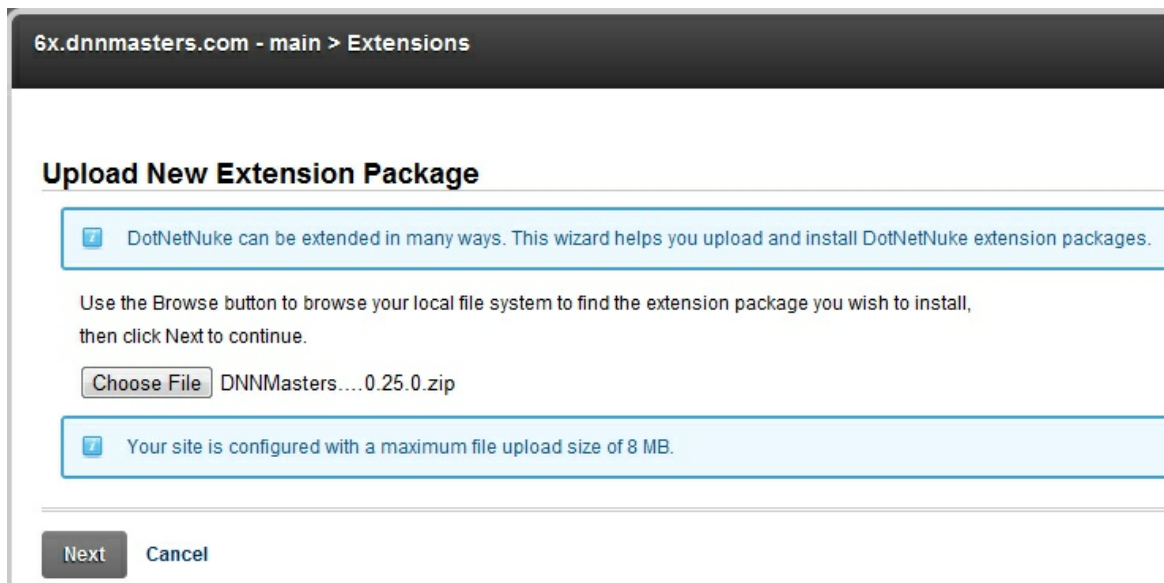

Your site is configured with a maximum file upload size of 8 MB.

Next Cancel

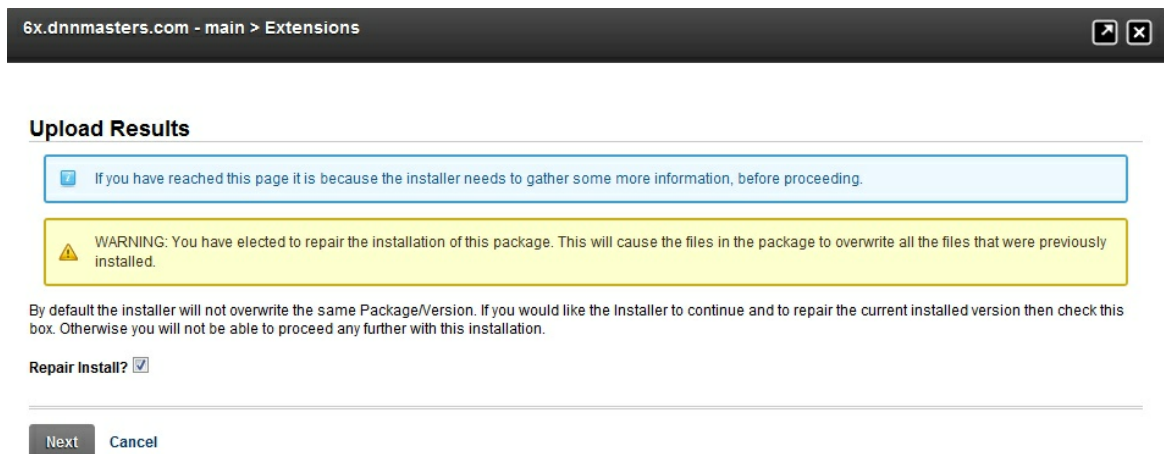

- Browse to DNNMasters.SEO.SiteMap_PA_05.00.25.0_dnn6x.zip and click **Open**

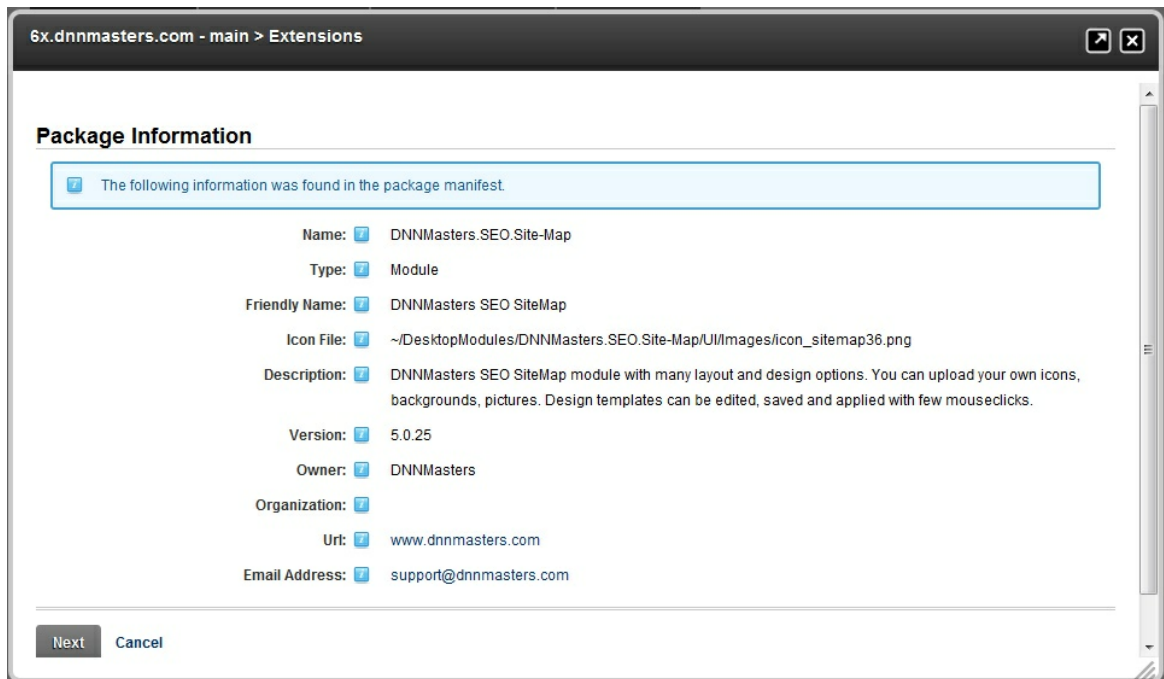

- click **Next**

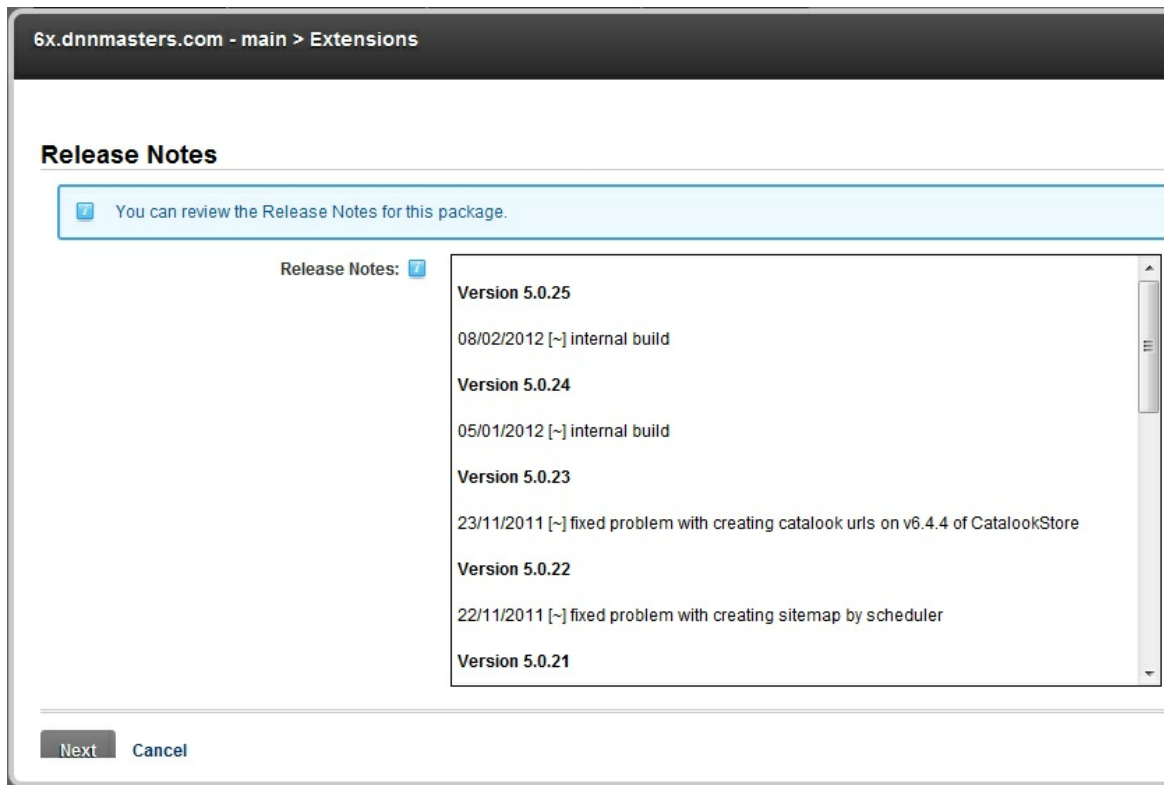

- If you already installed the older version of SEO.Sitemap module or another DNNMasters module with license protection you will be presented with a warning as below. Don't worry, this warning refers to a licensing component that's included in each PA file.
- Please select the **Repair Install** box and click **Next**

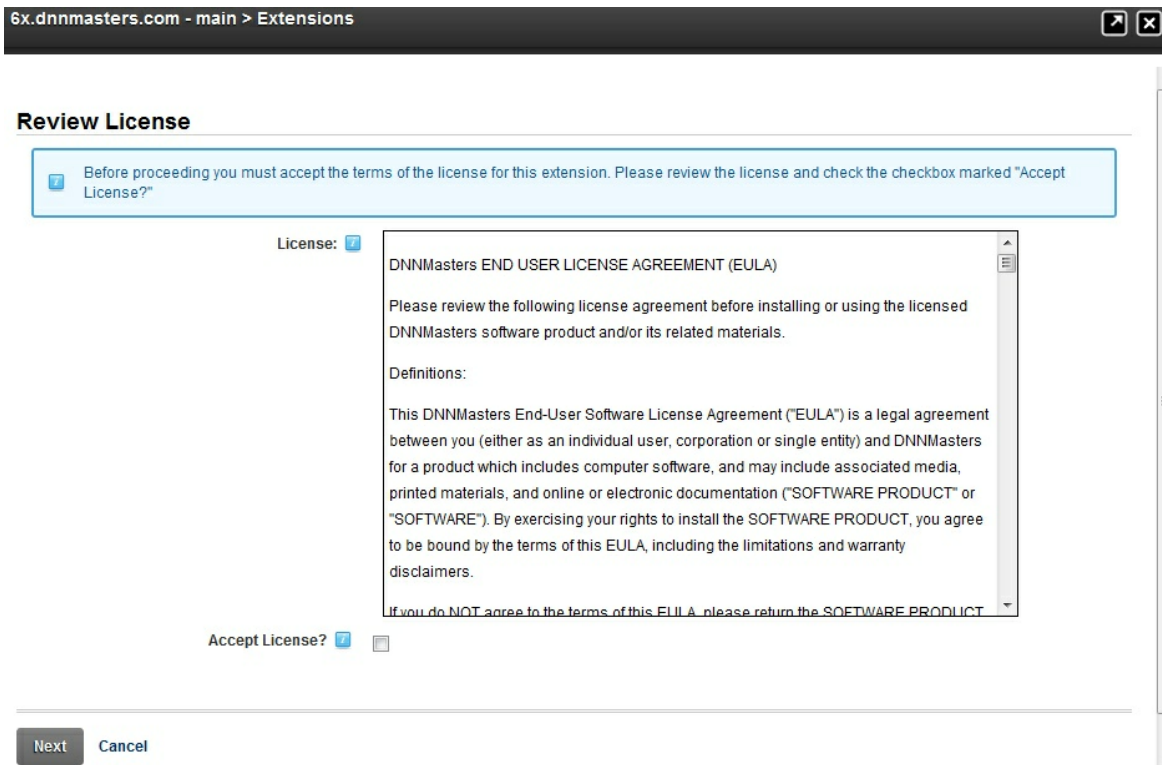

- Verify that you are installing the version that you wanted to install (version number) and click **Next**

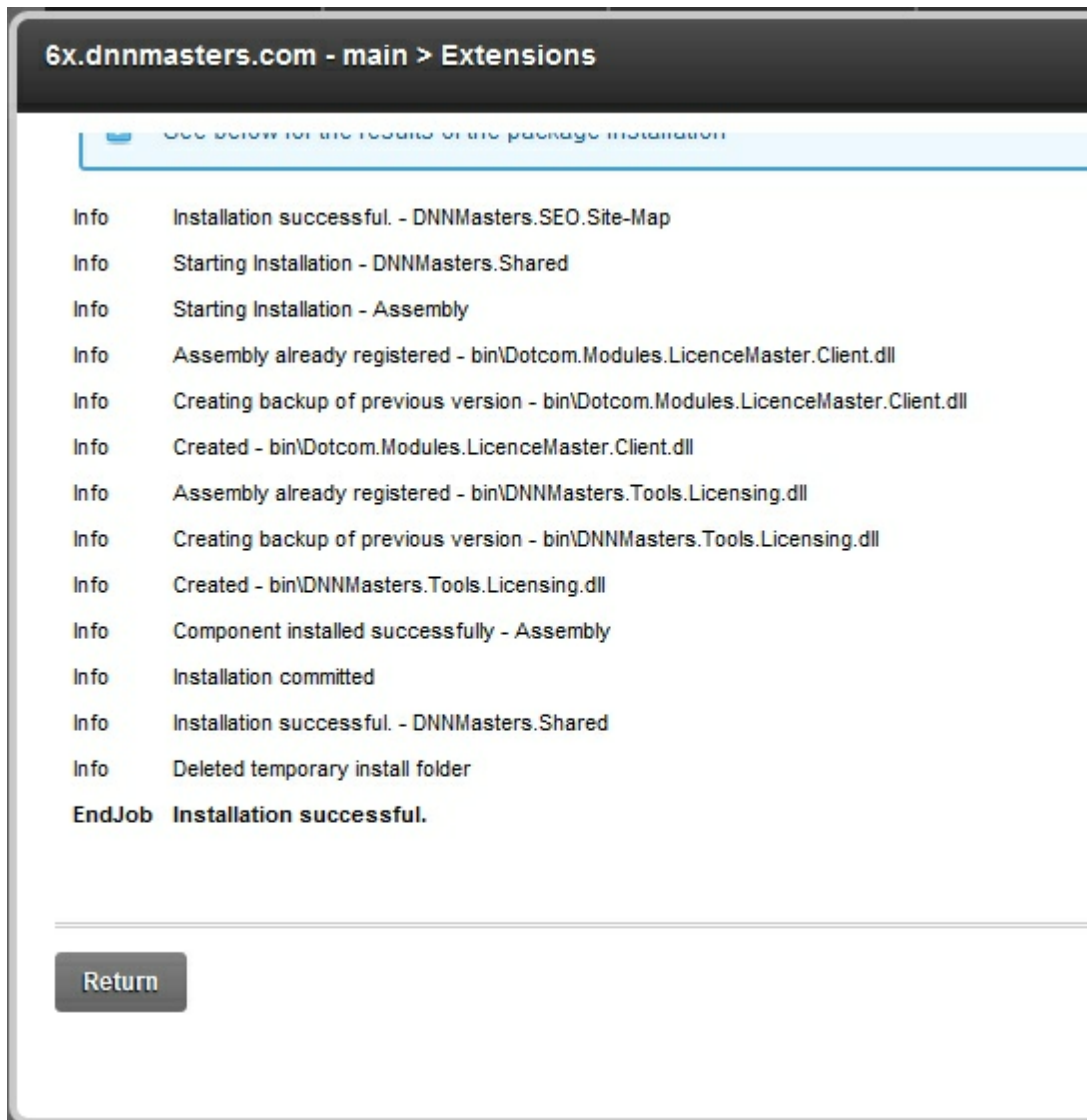

- read the information provided in change log file and follow instructions if any,
- Click **Next** to continue,

- Review the license and select the **Accept License** box.
- Click **Next** to start the installation.

- Installation script will automatically create all necessary database objects and copy files to proper locations. Please check installation log for errors and if there are none click **Return** to complete installation process.

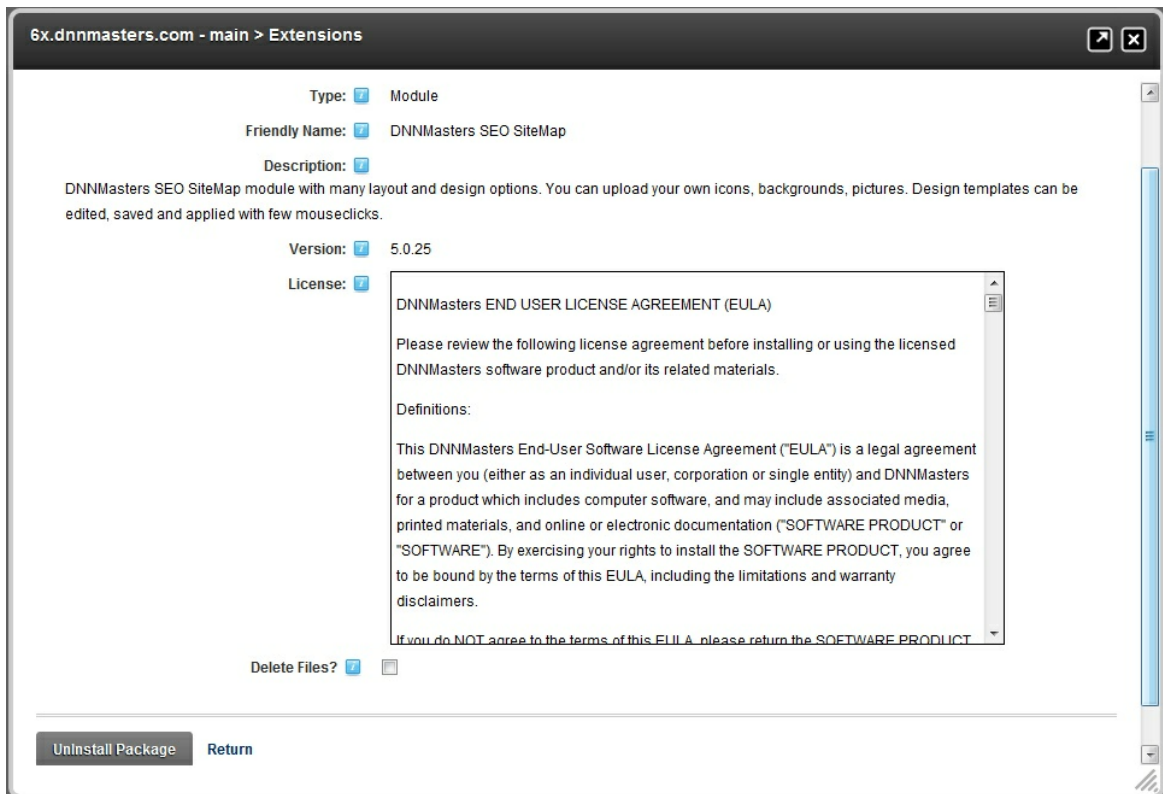

2.2 Uninstalling the Module

1. As with any module installation make sure that you back up your database before uninstalling,
2. Uninstall the module as standard Private Assembly
3. Go to Host --> Module Definitions --> click the pencil icon next to the module name,
4. Now click Delete

- go to **Host -> Extensions**, select **DNNMasters.SEO.Sitemap** module and click on the red X icon

- select **Delete Files** box and click **Uninstall Package**

- Confirm action

- The process will start and display a report - please check the report for errors,

DNN 610 > Extensions

3.1.1.9.2.1 Edit Template

Templates can be edited (images, layouts, etc)

Select the template to edit or **New template** to create one and click green arrow icon

MANAGETEMPLATES

[Back To Options](#)

STEP 1: Select an existing template to edit or new to create new one. You can also edit existing template and save it with new name.

- MIF.tpl
- template_1.tpl
- template_2.tpl
- template_3.tpl
- New template...

[Delete Template](#)

Select layout and other attributes.

Click the green **Reload** icon to see the resulting layout

MANAGETEMPLATES

STEP 2: Select SiteMap layout type, number of roots and cells.

Layout type:

Cells:

Roots:

Level 0 N 1

Level 0 N 2

Level 1 N 1

Level 2 N 1

Level 0 N 3

Level 0 N 4

Level 0 N 5

Layout with different number of roots. Click green arrow icon to continue,

MANAGETEMPLATES

STEP 2: Select SiteMap layout type, number of roots and cells.

Layout type:

Cells:

Roots:

Level 0 N 1

Level 0 N 2

Level 0 N 3

Level 0 N 4

Level 1 N 1

Level 2 N 1

Here you can select images and icons for your sitemap

MANAGETEMPLATES

STEP 3: Choose images for header, footer, content and icons for levels.

Images location: Default Others

Image type:

Image:

Level:

Level image:

Level 0 N 1

Level 0 N 2

Level 0 N 3

Level 0 N 4

Level 0 N 5

Level 1 N 1

Level 2 N 1

Change the levels icons and click **Reload** icon to see the changed design

MANAGETEMPLATES

STEP 3: Choose images for header, footer, content and icons for levels.

Images location: Default Others

Image type: Header

Image: header_bg.gif

Level: 2

Level image: bullet.gif

Level 0 N 1

Level 0 N 2

▶ Level 1 N 1

▪ Level 2 N 1

Level 0 N 3

Level 0 N 4

Level 0 N 5

Or change image location from **Default** (module install folder) to **Others** which will give you the option to upload images to portal location.

MANAGETEMPLATES

STEP 3: Choose images for header, footer, content and icons for levels.

Images location: Default Others

Image type: Header

File Location: Root

Image: **File Name:**

[Upload New File](#)

Level: 1

File Location: Root

▪ Level 2 N 1

Level 0 N 3

Level 0 N 4

Level 0 N 5

Change css as needed.

MANAGETEMPLATES

STEP 4: Edit SiteMap stylesheet.

SiteMap stylesheet:

```
.RootNode
{
color: black;
font-family: verdana;
font-size: 10px;
font-weight: bold;
padding:0px;
padding-top:0px;
padding-bottom:0px;
}

.RootNode a
{
```

- Level 0 N 1
- Level 0 N 2
 - ▶ Level 1 N 1
 - Level 2 N 1
- Level 0 N 3
- Level 0 N 4
- Level 0 N 5

Enter template name and click the green arrow icon to save template.

MANAGETEMPLATES

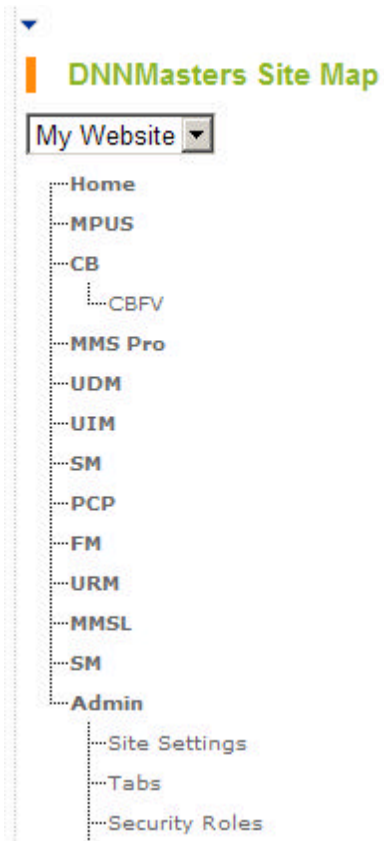

Enter template name.

3.2 Allow Multiportal

The module can be also used to display Site Maps of multiple portals.

Allow Multiportal: Yes No

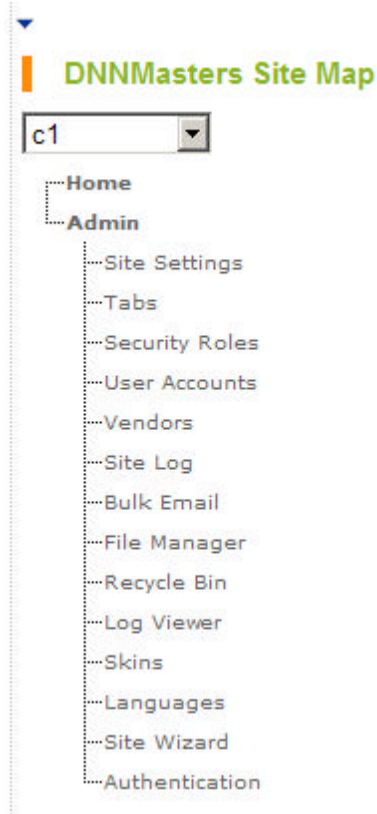

Turn the multiportal option on

View current portal

Select portal to display from a drop down list

[View another portal's Site Map](#)

3.3 Child Tabs

The module can be also used as navigation module for Child Tabs. The default setting is No (Off).

3.3.1 Child Tabs On

When the Child Tabs option is set to Yes (On)

the module will display all tabs that are below the current tab on which the module is placed.

DNNmasters Child Tabs

- DNNMasters Content Builder Lite
- DNNMasters Content Builder Pro
- DNNMasters Multi Portal User Sharing

 -  DNNMasters SMTP Relay PRO Demo
- DNNMasters Random Password Generator
- DNNMasters SMTP Relay Testing
- DNNMasters MultiPortal SignIn & Register
- DNNMasters Rename User
- DNNMasters Remote User Sharing

3.3.2 Child Tabs - Current Level

When the Child Tabs option is set to Current Level

Child Tabs: Yes No Current Level

the module will show only tabs on the same level as the tab where the module is placed.

No parent or child tabs will be displayed.

3.4 Show Hidden Tabs

You can decide to show hidden tabs on Site Map if only for easy admin access.

EDIT

Site Map Type: Template

Template: MIF.tpl [Manage Templates](#)

Allow Multiportal: Yes No

Show Child Tabs Only: Yes No Current Level

Show current hierarchy: Yes No

Show Hidden Tabs: Yes No

Exclude hidden tabs:

	Tab Name
<input type="checkbox"/>	Search Results
<input type="checkbox"/>	User Profile
<input type="checkbox"/>	Admin

After selecting this option all hidden tabs will be displayed in sitemap but you have the option to exclude selected hidden pages.

3.5 Site Map Design

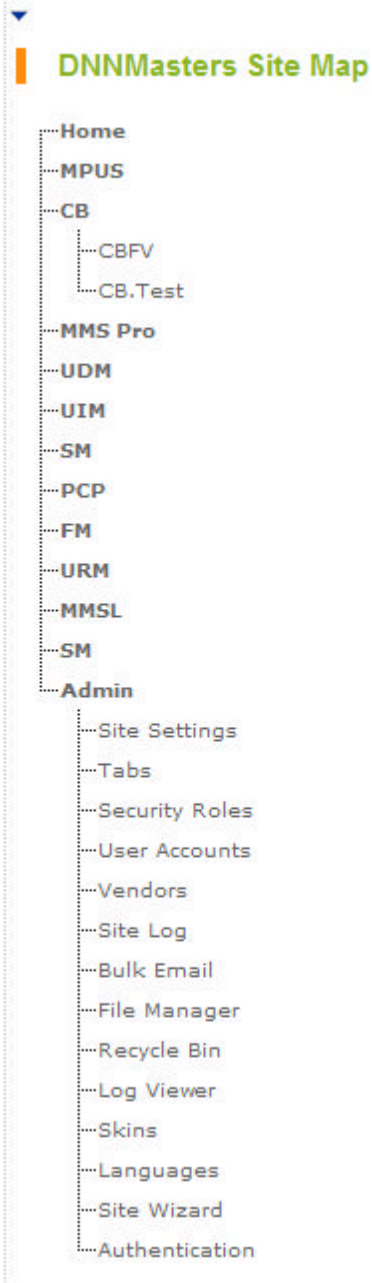

There are five settings directly responsible for design of selected layout

Show lines:	<input checked="" type="radio"/> Yes <input type="radio"/> No
Enable pictures:	<input checked="" type="radio"/> Yes <input type="radio"/> No
Pictures location:	<input checked="" type="radio"/> Local <input type="radio"/> Other
Level:	0 ▾
Picture:	folder_open.gif ▾

3.5.1 Show Lines

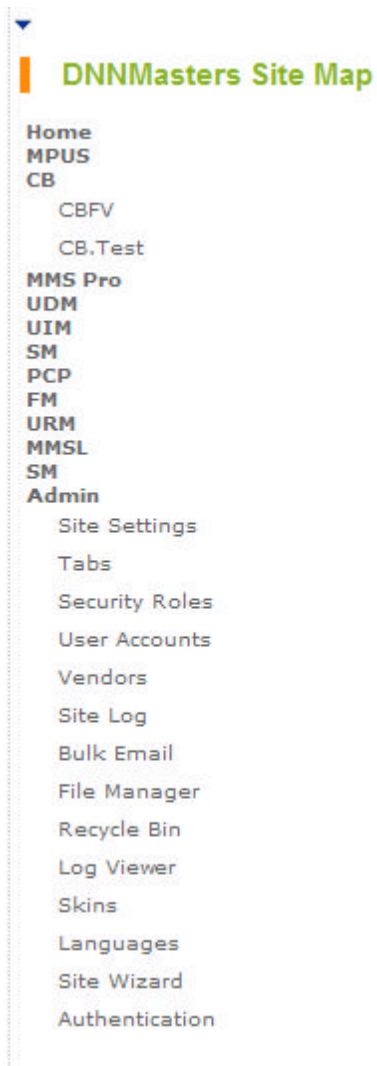

Show lines setting shows

Show lines:	<input checked="" type="radio"/> Yes <input type="radio"/> No
-------------	---

or hides the lines connecting tab nodes

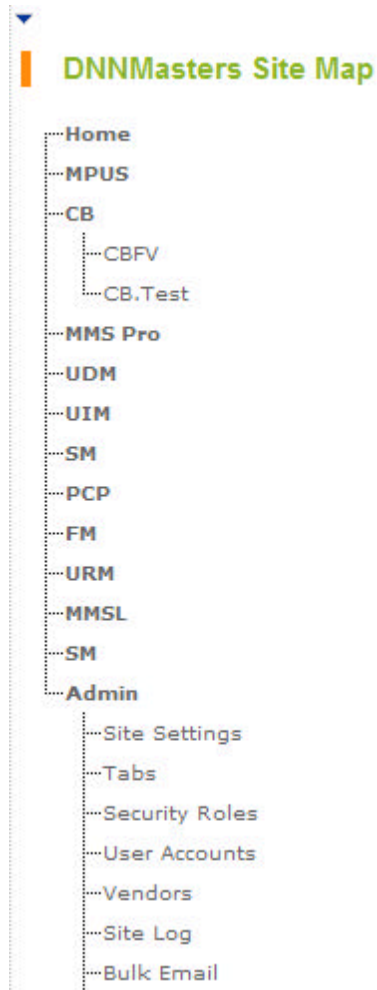

Show lines: Yes No

3.5.2 Enable Pictures

Enable Pictures setting is by default set to none (No)

 Enable pictures: Yes No

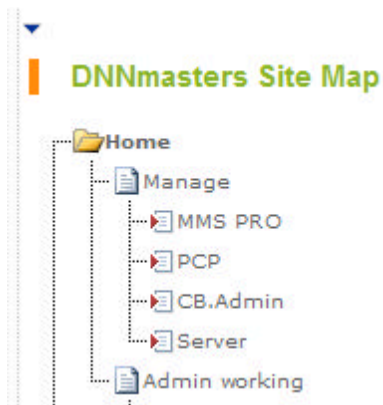

when set to Yes (On) it allows you to assign images/icons to each level

Enable pictures: Yes No

Pictures location: Local Other

Level:

Picture:

3.5.2.1 Pictures Location

Pictures can be located in module folder (default)

This screenshot shows the 'Pictures localization' settings. It includes three fields: 'Pictures localization:' with radio buttons for 'Local' (selected) and 'Other'; 'Level:' with a dropdown menu set to '0'; and 'Picture:' with an empty dropdown menu.

or in portal root where you can upload your own images

This screenshot shows the 'Pictures localization' settings with 'Other' selected. It includes the same 'Level:' dropdown set to '0'. Below it, the 'Link Type:' section has a radio button for 'File (A File On Your Site)' selected. The 'Picture:' field is expanded to show 'File Location:' with a dropdown menu set to 'Root', 'File Name:' with a dropdown menu set to 'aspnet.gif', and a blue link labeled 'Upload New File'.

3.6 Google Site Map

There are several options that influence Google Site Map creation and content.

GOOGLE SITEMAP SETTINGS

Include Hidden Tabs: Yes No

Include blogs entries:

Include Forum entries:

Include MyProfile entries:

Include UVG Video entries:

Include News Articles entries:

Include Property Agent entries:

Include Active Forums entries:

Include Catalog Entries: Include Only Active Products:

Include CB Entries:

Include Active Social Entries:

Portal Alias: 6x.dnnmasters.com ▼

Google frequency: daily ▼

Google priority: 0.5 ▼

Use Cache:

Enable compression:

Sitemap Storage Folder: Site root: "/" Portals/xx

Default Language: en-US ▼

Disable / enable site map webservice

Site Map Url:

[Accept](#) [Update](#) [Cancel](#)

- **Include Hidden Tabs** - allow hidden pages to be published in Google sitemap. If selected the hidden pages are displayed and each can be selected or de-selected,
- Options in red rectangle refer to listing pages generated by various modules. Check the box if you want module content to appear in Google Sitemap,
- **Portal Alias** - decide which portal alias should be used for Google Site Map links,
- **Google Frequency** - set Google Site Map retrieval frequency (default is Daily),
- **Google Priority** - set Google Site Map priority (default is 0.5, can be anything between 0.1 and 1.0),
- **Use Cache** - select if your portal has hundreds of pages or more,
- **Enable compression** - sitemap will be compressed (gzipped),
- **Sitemap Storage Folder** - location for sitemap cache file,
- **Default Language** - default site map language in case the portal uses several languages
- **Disable/Enable sitemap web service** - the web service must be enables for the Google sitemap to function. Click the button to enable / disable.
- **Sitemap URL** - url to access sitemap and register with Google. The **Submit** link helps you to register the sitemap.

3.7 Schedule Google Site Map

Google Site Map can be created (generated) automatically on schedule and cached in xml file. This is recommended only for portals with really big numbers of pages and/or content from modules. To comply with the specifications the cache file will be created with index and multiple files if the numbers are big enough.

Please use only together with **Use Cache = On**

☰ **Schedule Create Sitemap Settings**

Schedule Create Sitemap Settings ?

Custom DNN Modules

When your business requires something more than just the standard installation of DotNetNuke, you will need a reliable, experienced company like DNNMasters on your side.

DNNMasters can help you when you are looking for:

- DNN Certified modules to help you manage your website.
- Professional developers to create a custom module for your business.
- Remote assistance, administration and consulting.
- Client support 24 hours a day and 365 days a year.

We at DNNMasters are specialists in DotNetNuke. Our top quality custom DNN modules, DNN custom development and DNN consulting have been satisfying clients for over 5 years. Now your company is ready to go to the next level. Let DNNMasters help you get there. [Contact us](#) now for references and to discuss how we can help you meet your specific business goals. [\(More...\)](#)

DNN Modules

DNNMasters specializes in out of the box and custom dnn modules to enhance DNN content management, DNN user management and DNN portal management and help you control your costs of

administration without sacrificing member satisfaction. All modules are available for DotNetNuke Versions 3.x through 4.5.x. To learn more about the features that have made these tools an indispensable component of the DNN platform, [click here](#). To obtain these modules now, please [subscribe to our site](#) You can also obtain them from the [Snowcovered](#) marketplace.

DNNMasters User Manager series allows state of the art management of users, roles and profiles in a DotNetNuke portal. To learn more about this suite of modules, including the new User Sync Manager, [click here](#).

DNNMasters Multi Portal User Sharing allows the sharing of users and roles across the portals and sub portals on your DNN installation. To learn more about this popular module please [click here](#).

DNNMasters Content Builder is a perfect way for entering, organizing and presenting content across multiple sites. [Click here](#) to learn more.

DNN Consulting

DNNMasters offers premium DNN services to select clients, including DNN consulting, DNN administration and DNN remote assistance. These services will help you prevent most unexpected down time and to be prepared should an emergency arise. Clients using these services receive support 24 hours a day, 365 days a year. [Click here](#) to learn more or [contact us](#) now.

DNN Support Services

Fast and professional customer support is available for all products and services offered by DNNMasters. Customers and Subscribers to our product lines are offered two primary support channels: [Snowcovered Help Desk](#) and [DNNMasters Support Forums](#). Clients for DNN custom development and DNN consulting are provided with means to contact us 24 hour a day, 365 days a year. For full contact information please [click here](#).

Custom DNN Module Development

DNNMasters offers DNN custom development of high quality DNN modules at reasonable rates. We follow DotNetNuke Best Practices and provide you with tested, installable modules, complete with source code. We strive for 100% client satisfaction, zero bugs and on time delivery. Our expert team of developers can handle a wide range of projects, from profiles to reservation systems, and everything in between. [Click here](#) for more examples, or [contact us](#) today to start the process of developing your custom DNN module.

4.1 About us

DNNMasters is a leading DotNetNuke development firm that specializes in custom modules and provides expert support.

We welcome the opportunity to get to know you and your business needs. For more information about us, please read on or [contact us](#) now.

You can also visit [Snowcovered.com](#) to view our [profile](#), to see [customer feedback](#) about our products and services, and to read reviews of [specific modules](#).

Our current (as of March 23 2010) Snowcovered review score is 4.43..

DNNMasters was formed in 2002 by a team of professional programmers who saw the potential in

the platform which has since evolved into DotNetNuke. Seeing the potential of DNN as a tool for businesses, DNNMasters saw a need for experienced, qualified, service oriented professionals to assist companies in achieving their goals. Over the years DNNMasters' success at serving clients, and in developing modules that solve tough business problems, has brought the company the respect of many within the DotNetNuke community, and the gratitude of many clients.

DNNMasters strives to achieve the highest level of standards and customer satisfaction, while providing clients with:

- DNN Certified modules for managing websites.
- Professional development of custom modules.
- Remote assistance, administration and consulting.
- Excellent support.

With over 5 years of providing DotNetNuke development, customization and support, we have the experience and the stability to be your DNN development partner. [Contact us](#) today for more information. Thank you for your interest in our company and our services. We look forward to hearing from you.

Wherever you are, wherever we are...We can serve you!
